History of Christianity Paul Johnson 2012-03-27 First published in 1976, Paul Johnson’s exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude—a “a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical” (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known ‘Jesus Sect’, A History of Christianity explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

Joseph Smith, Jr. Reid L. Neilson 2009-03-05 Mormon founder Joseph Smith is one of the most controversial figures of nineteenth-century American history, and a virtually inexhaustible subject for analysis. In this volume, fifteen scholars offer essays on how to interpret and understand Smith and his legacy. Including essays by both Mormons and non-Mormons, this wide-ranging collection is the only available survey of contemporary scholarly opinion on the extraordinary man who started one of the fastest growing religious traditions in the modern world.

Christus Vivit Pope Francis 2019-04-04 To young Christians of the world, Pope Francis has a message for you: “Christ is alive, and he wants you to be alive!” In his fourth apostolic exhortation, Christus Vivit, Pope Francis encapsulates the work of the 2018 synod of bishops on “Young People, The Faith, and Vocational Discernment.” Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment Christus Vivit is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. “May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet arrived, have the patience to wait for us.”

Dogmatic Constitution on Divine Revelation Pope Paul VI. 1965 This document's purpose is to spell out the Church's understanding of the nature of revelation—the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the “word of God.” Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

Looking Outward Robert Stroud 2013-11-19 Stroud had received permission from the warden at Alcatraz to write a penal history, but bureaucrats in Washington, D.C., balked when they reviewed his manuscript. The top brass hastily created new rules for inmate authors, forbidding the publication of any inmate's work that was obscene, criticized the prison system, or glorified crime. Stroud was transferred in 1959 to the US Federal Medical Prison for chronically ill inmates in Springfield, Missouri, where he died in November, 1963. Martin, the Missouri attorney, was named administrator of Stroud's estate and gained custody of the manuscripts in lieu of compensation for his legal services. Martin tried to hawk the prison history manuscript to publishers, but they expressed little or no interest. "Some said it was too long. Others were afraid of being sued for libel because Stroud wrote about living people - corrupt prison officials, sadistic guards and brutalized prisoners," Martin said. "Others said no one was interested in the prison system, or that history doesn't sell. Some of the great stories in literature are prison stories. I guess they hadn't read 'The Count of Monte Cristo' or 'The Gulag Archipelago,'" Martin said. Martin insists that... Stroud's observations on the U.S. prison system are still relevant today. An incredible true story from the Pulitzer Prize-nominated New York Times bestselling author of Crazy. Between 1995 and 2000, "Comrade J" was the go-to man for SVR (the successor to the KGB) intelligence in New York City, overseeing all covert operations against the U.S. and its allies in the United Nations. He personally handled every intelligence officer in New York. He knew the names of foreign diplomats spying for Russia. He was the man who kept the secrets. But there was one more secret he was keeping. For three years, "Comrade J" was working for U.S. intelligence, stealing secrets from the Russian Mission he was supposed to be serving. Since he defected, his role as a spy for the U.S. was kept under wraps-until now. This is the gripping, untold story of one man who defected, his role as a spy for the U.S. was kept under wraps-until now. This is the gripping, untold story... What is the nature of reality? Is the apparent "grand design" of our universe evidence of a benevolent creator who set things in motion—or does science offer another explanation? In this startling and lavishly illustrated book, Stephen Hawking and Leonard Mlodinow present the most recent scientific thinking about these and other abiding mysteries of the universe, in nontechnical language marked by brilliance and simplicity. According to quantum theory, the cosmos does not have just a single existence or history. The authors explain that we ourselves are the product of quantum fluctuations in the early universe, and show how quantum theory predicts the "multiverse"—the idea that ours is just one of many universes that appeared spontaneously out of nothing, each with different laws of nature. They conclude with a riveting assessment of M-theory, an explanation of the laws governing our universe that is currently the only viable candidate for a "theory of everything": the unified theory that Einstein was looking for, which, if confirmed, would represent the ultimate triumph of human reason.
